Inclusive Growth *bulletin*

June/July 2010 - Number 02

Message from the Director

The current release of IPC-IG publications can be seen as focusing on **resilience**. In the **post-crisis context**, resilience to exogenous shocks has become the focus of attention, as countries find their progress towards the MDGs and other development goals impacted by these shocks. **More...**

News

South-South Cooperation

Latin American countries discuss cooperation in social policies
Brazil, Chile, Colombia, Mexico, Uruguay meet in Brasilia to strengthen South-South cooperation on social development... **More**.

CCT Programme

***Bolsa Familia* does not lead to dependence**
IPC-IG publication analyses the participation in the labour market and the number of hours worked between beneficiaries and non-beneficiaries ... **More**

New Publications

1) Social Policy in the post-crisis context of Small Island Developing States: A Synthesis

Leisa Perch and Rathin Roy provides a synthesis of the multifaceted impact of the global economic crisis on the SIDS, focusing on the Pacific and Caribbean regions.
Working Paper # 67
One Pager # 113

2) Public Works and Employment Programmes: Towards a Long-Term Development Approach

By Steve Miller, Radhika Lal, Maikel Lieuw-Kie-Song and Daniel Kostzer.
This paper assesses the desirability and feasibility of adopting a universal or a partial Employment Guarantee (EG) approach to make large scale programmes
Working Paper # 66
One Pager # 112

3) Market Alternatives for Smallholder Farmers in Food Security Initiatives: Lessons from the Brazilian Food Acquisition Programme

By Danuta Chmielewska and Darana Souza. Their goal is to identify how policies that support smallholders' livelihoods, particularly through market access could play a vital role in reducing poverty and enhancing food security.
Working Paper # 64
One Pager # 110

4) Beyond Cash: Assessing Externality and Behaviour Effects of Non-Experimental Cash Transfers

By Rafael Perez Ribas, Fábio Veras Soares, Clarissa Teixeira, Elydia Silva and Guilherme Hirata
Working Paper # 65
